PROFILE

I am a passionate Flutter mobile app developer with strong expertise in UI/UX design, API integration, and state management using GetX and Provider. I specialize in building custom, user-centered applications with clean, maintainable code. In addition to mobile development, I bring hands-on experience in web development using PHP, HTML, CSS, JavaScript, and frameworks like Laravel and React. During my tenure at Digital Zalmi, I contributed to both front-end and back-end projects, gaining valuable experience in full-stack development. I aim to join a forward-thinking organization that values innovation, continuous growth, and cross-platform development expertise.

WORK EXPERIENCE

Digital Zalmi

From December 5- 2024 Present 📍 Charsadda,Pakistan

JZT Pakistan Portal
- Developeing a portal to manage volunteer registrations and thalassemia-related activities.
- Enabled individuals to register as volunteers through a dedicated form.
- Displayed a list of universities registered across Pakistan.
- Tracked and displayed total donations collected for thalassemia support.
- Monitored the total number of registered thalassemia patients.
- Maintained screening records of thalassemia patients for better medical tracking.

Point of Sale (POS) System OSK Tyre busines UK.
- Developed a cloud-based POS system tailored for a UK-based tyre business.
- Included modules for sales, purchases, inventory management, and accounting.
- Integrated cash and bank transaction management, journal vouchers, and financial reports (P&L, Trial Balance).
- Implemented functionalities for cash sales, credit sales, sales returns, and invoice generation.
- Designed a real-time dashboard showing key metrics like cash flow, stock levels, payables, and expenses.

App Development Two Months Course

01-10-2024 To 5-12-2024 📍 BKUC, USAID Sponsor

Practical application development with an emphasis on real-world projects.
Created responsive and user-friendly designs for web and mobile apps.
Utilized Git and GitHub for project collaboration and version control.
